

Decommissioning Science Diagram
mainly for basic and fundamental R&D
(Detailed Version) → Outline of Decommissioning Workflow

Overall Strategy to Rationally Proceed with Decommissioning (Entire process optimization, Risk management, Economic rationality)

Fundamental Research of Technology

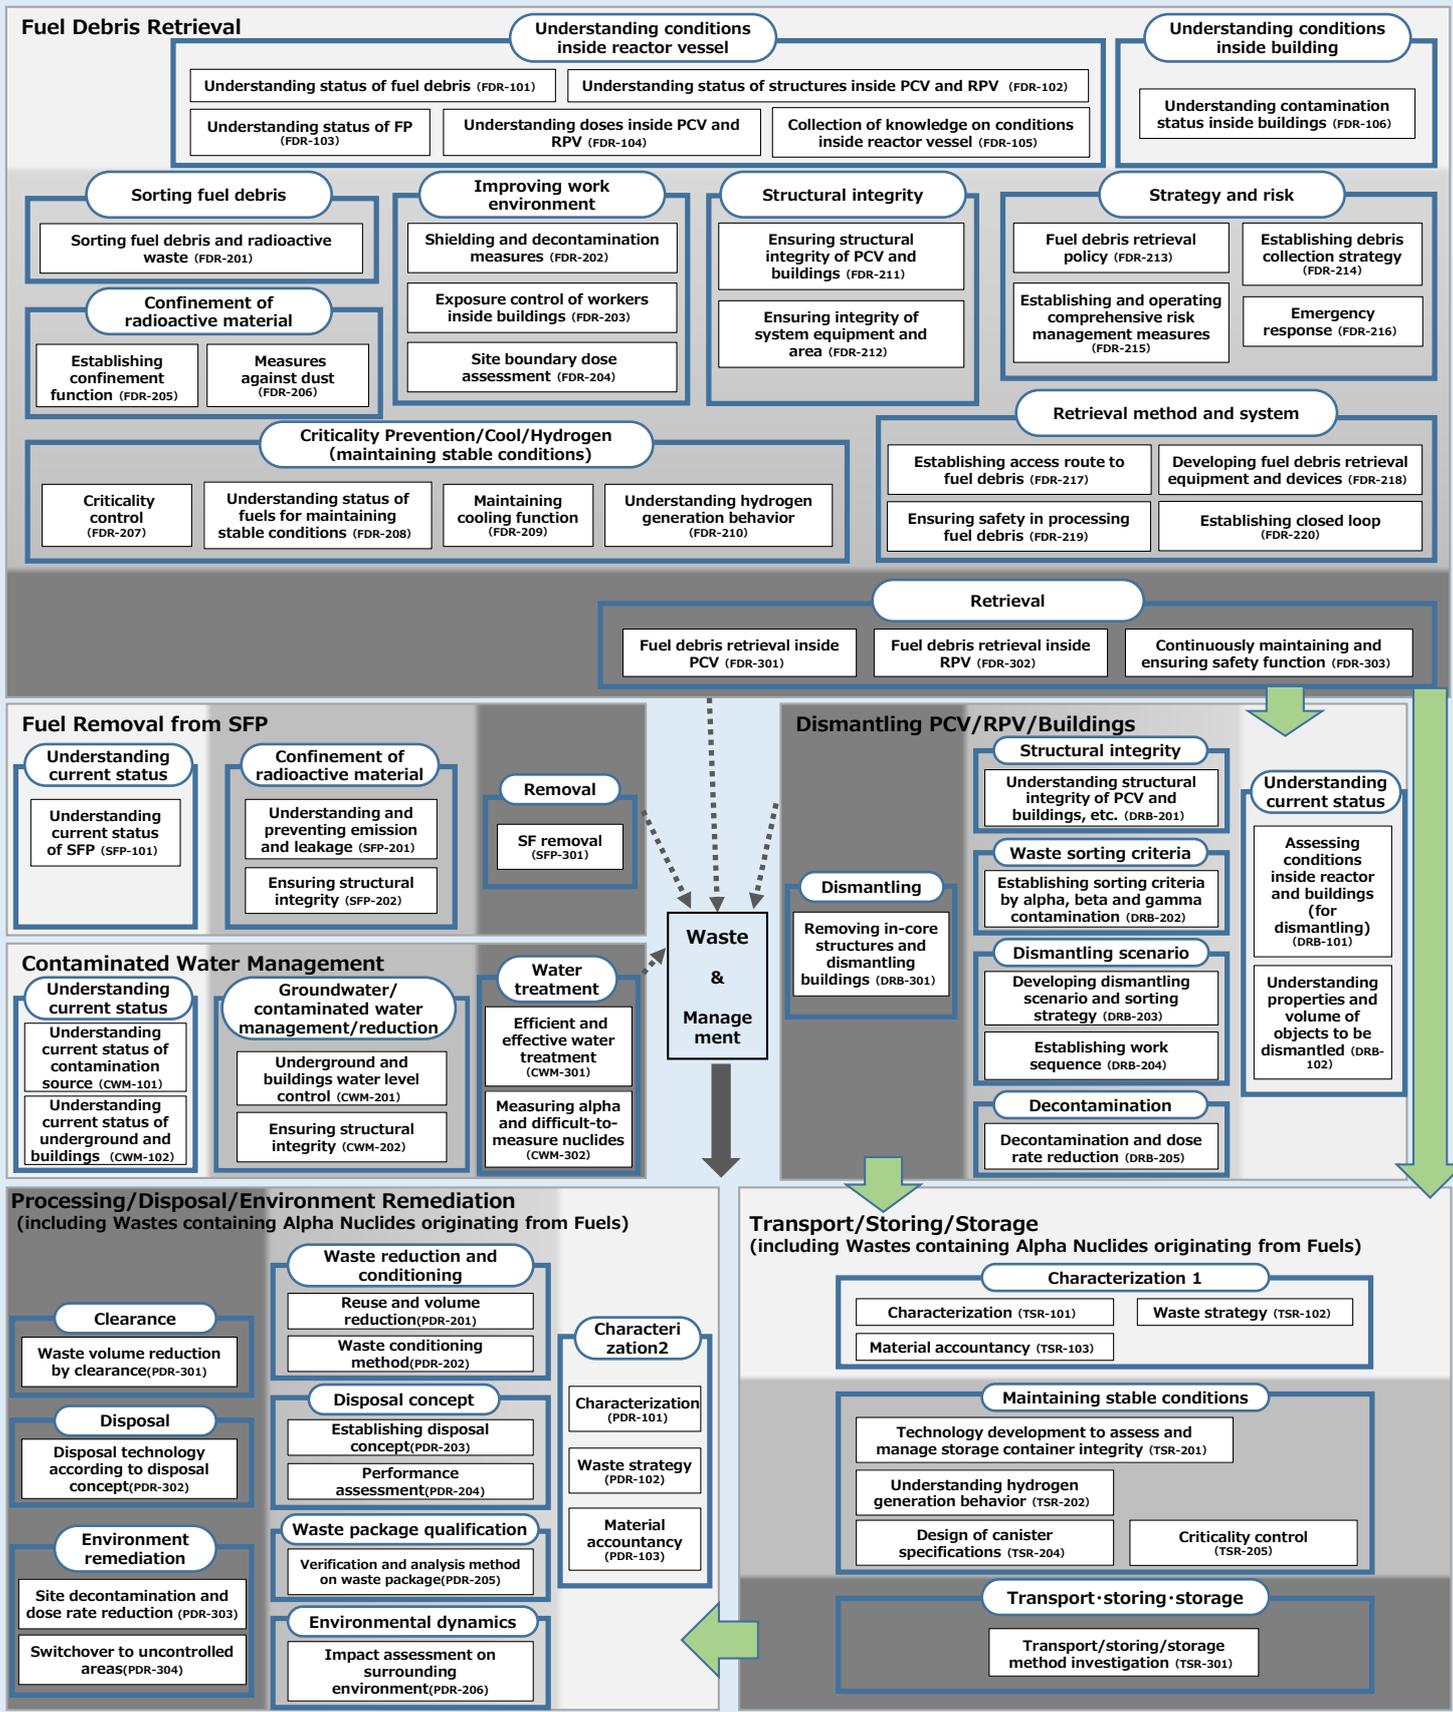

Fundamental Research of Society

- Legislation
- HR development
- Coexistence with local community
- Dispatch of information
- Ensuring sustainability
- Working environment management

Overall Strategy to Rationally Proceed with Decommissioning (Entire process optimization, Risk management, Economic rationality)

Fundamental Research of Technology

- Remote control technology(BST-1)
- Visualization technology(BST-2)
- Measurement and analysis technology(BST-3)
- Radiation resistance(BST-4)
- Standardization(BST-5)
- Risk assessment(BST-6)
- Knowledge management(BST-7)

Fundamental Research of Society

- Legislation
- H&R development
- Coexistence with local community
- Dispatch of information
- Ensuring sustainability
